

# Community Highlights

## AND UPCOMING EVENTS

### Bayview Food Pantry

GCE organized a Food Pantry Food Drive with the help of our Maryland Service Year students, Maya and Robbie. The goal of the food drive was to support Bayview's emergency food closet that services southeast Baltimore County and City residents, patients, and employees with a 3-day supply of food. GCE is also in early discussions about similarly assisting the JHH team with their food pantry.

### THREAD Mentoring Lunch & Learn

THREAD, a Baltimore-based non-profit organization, is on a mission to help combat social isolation and build connections across lines of difference with Baltimore City youth who academically rank in the lowest 25 percent of their class and face additional challenges outside of the classroom. In an event on March 5th at Bayview, over 40 individuals signed up to receive more information about becoming Thread volunteers.

### CIAA Career Expo & Fan Fest

Staff from JHU HR, JHM HR, and the Vivian Thomas Scholars Initiative connected with over 100 potential job applicants and STEM students at the Career Expo. The GCE team, along with individuals from From Center for Talented Youth, Institute for Clinical and Translational Research, and Johns Hopkins Hospital Injury Prevention engaged with more than 1,300 attendees at the Fan Fest, providing health education, resources, and screenings for various health concerns.
