**Maryland's Economic Engine and Innovation Hub**

Johns Hopkins stands as Maryland's largest private employer and significant economic driver. From the flagship campuses in Baltimore to the Applied Physics Laboratory in Howard County, Suburban Hospital in Montgomery County, and more—Johns Hopkins touches every corner of the state. The institution draws more than \$4.8 billion in research funding into the State annually, positioning Maryland as a national leader in biomedical research, space exploration, and defense technologies while fostering a thriving innovation ecosystem that has launched numerous startup companies. From groundbreaking discoveries at the Applied Physics Laboratory to life-saving treatments at Johns Hopkins Hospital, the Institution continues to drive Maryland's transformation into a knowledge-based economy while strengthening communities through substantial investments in education, healthcare access, and neighborhood development.
